TERAS ANNOUNCES \$250,000 PRIVATE PLACEMENT

Teras Resources Inc. (“**Teras**” or the “**Company**”) (TRA.V): announces that it intends to complete a non-brokered private placement of up to 5,000,000 units (each a “**Unit**”) at a price of \$0.05 per Unit for gross proceeds of up to \$250,000, subject to approval of the TSX Venture Exchange. Each Unit will consist of one common share (a “**Common Share**”) and one Common Share purchase warrant (a “**Warrant**”). Each Warrant is exercisable into one Common Share at a price of \$0.05 per share for a period of one year from the issuance of such Warrant. A finder’s fee and or finder warrants may be paid on the gross proceeds of all or any portion of the private placement. The company has agreed to extend the expiry date of Warrants set to expire on August 02, 2019 issued through a financing and announced on July 27th, 2018: the new expiry date will be August 02, 2020, subject to the approval of the TSX Venture Exchange.

The majority of the proceeds of the private placement will be reserved for marketing and pursuing strategic opportunities for the company’s “Flagship” Cahuilla project as well as capitalizing on its other assets. Management feels the mining sector (especially for precious metals) has bottomed and is now positioned for growth. After having numerous and strategic high level discussions recently on its Cahuilla project, as well as the company’s other mining projects, Management is optimistic in building near term growth for its shareholders..

For further details on the private placement, please contact the Company. All securities issued in connection with the private placement will be subject to a hold period of four months and a day from the date of closing.

Teras announces that Mr. Kenneth Cunningham has resigned as a director of Teras. On behalf of the board of directors, Peter Leger, President and CEO of Teras commented: “We appreciate the contributions Kenneth has made to Teras in the time he was on the board. We wish him all the best in his retirement.”

About Teras

Teras is focused on developing its Cahuilla project located in Imperial County, California. The project encompasses an area of at least 3 km by 1.5 km and Teras believes that the Cahuilla project has the potential to develop into a mining operation consisting of altered and mineralized sedimentary host rocks with numerous sheeted high-grade sheeted quartz veins. Teras filed a NI 43-101 technical report with an indicated resource of 1.0 million ounces of gold and 11.9 million ounces of silver on its Cahuilla project (70 million tons at an average grade of 0.015 ounces per ton gold and 0.17 ounces per ton silver with a cut-off of 0.008 ounces per ton gold) and inferred class of 10 million tons grading 0.011 opt gold and 0.10 opt silver. Gold equivalent ounces are 1.2 million ounces in indicated class and 130,000 ounces in inferred class using a ratio of 55 silver ounces to 1 gold ounce. For further information on the Cahuilla project refer to the NI 43-101 technical report entitled “Cahuilla Property 43-101 Technical Report,” filed with Sedar on November 27, 2012.

Dr. Dennis LaPoint, a qualified person under National Instrument 43-101 "Standards of Disclosure for Mineral Projects," and a Director for Teras is the Company's nominated qualified person responsible for monitoring the supervision and quality control of the programs completed on the Company's properties. Dr. LaPoint has reviewed and verified the mining, scientific and technical information contained in this news release. Dr. LaPoint is a registered geologist with the Society of Mining Engineers.

This press release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. All statements, other than statements of historical fact, included herein may be forward-looking information. Generally, forward-looking information may be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "proposed", "is expected", "budgets", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases, or by the use of words or phrases which state that certain actions, events or results may, could, would, or might occur or be achieved. In particular, this press release contains forward-looking information regarding: the ability to raise the capital needed for the companies Cahuilla project, the development and advancement of the Cahuilla project, the development of the geologic model in respect of the Cahuilla project, the development of further drill plans in relation to the Cahuilla project and the potential of the Cahuilla project to develop into a mining operation. This forward-looking information reflects the Company's current beliefs and is based on information currently available to the Company and on assumptions the Company believes are reasonable. These assumptions include, but are not limited to, the actual results of exploration projects being equivalent to or better than estimated results in technical reports or prior exploration results, future costs and expenses being based on historical costs and expenses, adjusted for inflation, the ability of the Company to obtain acceptable financing, market acceptance of its exploration programs and projects; consistent and favorable commodity prices; and regulatory acceptance of the Company's geologic models. Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking information. Such risks and other factors may include, but are not limited to: the early stage development of the Company and its projects; general business, economic, competitive, political and social uncertainties; commodity prices; the actual results of current exploration and development or operational activities; competition; changes in project parameters as plans continue to be refined; accidents and other risks inherent in the mining industry; lack of insurance; delay or failure to receive board or regulatory approvals; changes in legislation, including environmental legislation, affecting the Company; timing and availability of external financing on acceptable terms; conclusions of economic evaluations; and lack of qualified, skilled labour or loss of key individuals. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.
